

# THE DR. RICHARD & LINDA GREEN ENDOWED SCHOLARSHIP

The L.D. Pankey Dental Foundation is proud to provide scholarship opportunities to emerging leaders in dentistry. Our scholarship is designed to help encourage a practicing dentist, who has been in practice for three to fifteen years and while having a wonderful dental school education, is becoming more aware of an emerging desire for excellence in continuing education. Our Rich and Linda Green Scholarships are focused on those who have yet to experience a life-changing course at The Pankey Institute. You are invited to engage in the scholarship application process. When you are awarded a Rich and Linda Green Scholarship the scholarship awarded can be your choice and applied to one of the following courses:

**Essentials One | Aesthetics | Creating Greater Case Acceptance**  
**| Mastering Business Essentials | Dental Sleep Medicine |**  
**Advanced Airway Management | TMD | Excellence in Bonded Porcelain**

*"I believe in a uniquely individualized, relationship-based, values-driven, comprehensive approach to patient care, one that promotes positive health choices; time is allowed to help the patient clarify their best choice while connecting their choice to their expressed values, even in the face of resistance."*

- Richard A. Green, DDS, MBA
