

# A PHILOSOPHY OF THE PRACTICE OF DENTISTRY:

THE GIFT OF A LEGACY FROM DR. LD PANKEY V1.0

## - PANKEY VIRTUAL STUDY CLUB -

This Online Course will include six sessions of 2 ½ hours each. A workshop format will be used, with time to break up into smaller chat groupings to help process with other participants and facilitator.

Each of the six sessions will have variable amounts of time between sessions to do some assigned work on personal development exercises and team development assignments. All of the exercises will endeavor to encourage you to continue to develop your gifts and strengths on the behavioral side of Personal and Professional Growth. We can do this with an intention to expand our conversational awareness in earning the right to be heard, which in turn may grant an opportunity to influence; gifted by our patients and others.

Throughout our time together we will be asking each participant to reflect on Applying Your Knowledge by reflecting and sharing what you are doing and discovering:

- To create a learning environment, which mimics Or. Pankey's curiosity and intent concerning facilitating others in their own development of A Philosophy of the Practice of Dentistry and Life.
- To facilitate experiential learning moments, which appeared during my twenty-year relationship with Dr. Pankey and his gifts of Conceptual Frameworks (Cross of Life, Cross of Dentistry, Cross at Health, and The Four-Legged Stool of Patient Oral Health), which can be experienced by each participant within a workshop /discovery format.
- To uncover the benefits, grounded in the study of Classic Literature and reference to Socrates, Plato, and Aristotle as a foundation to his conceptual frameworks.
- To foster a growing appreciation and understanding of a gift of time, for the working out of our own philosophy of the practice of dentistry and life.
- To discover together the gifts of patience while inviting again and again, while still holding space for a "yes"!
- To experience the gifts of discovering for yourself; learning that all life comes to us in narrative form and can provide a preference for paradox, metaphor, poetry on a slant, and each persons' story.
- To create an environment for practicing Possibility and Conversational Behaviors; without Should's, Ought's, Must's or Need To's!
- To practice instead of using open-ended questions or a "you can" approach with continual invitations toward engagement and applied to learn through cycles of reflection, clarification, new awareness, action, recycled again and again.
